

spring, well, cesspool, privy, sink drain or private sewage disposal plant, which is or may become prejudicial to health, the State Board of Health may order said property to be connected with the water supply or sewerage system, and the spring, well, cesspool, privy, sink drain or private sewage disposal plant abandoned and left in such a way that it cannot be again used nor become injurious to health. The State Board of Health shall be empowered to prevent the construction of any proposed well, cesspool, privy, sink drain or private sewage disposal plant whenever or wherever it may deem that the proposed construction would be prejudicial to health. After April 16, 1914, no privy shall be built within the State of Maryland, except it be of such construction as will effectually prevent any contact of fecal matter with the soil and also access to such matter by flies. The State Board of Health shall be the judge as to whether or not any privy is built in conformity with this rule, and if it shall find that the regulation has not been strictly complied with, it shall condemn the structure and shall order that such changes be made as will be sufficient for compliance with this provision.

1914, ch. 810, sec. 14.

282. The State Board of Health shall have supervision and control over the surroundings of any source from which either surface or underground water, for potable purposes, is collected for delivery in containers; and it shall also assume jurisdiction over the method of collecting, bottling and delivering such waters. After April 16, 1914, no such waters shall be collected, bottled or delivered until a written permit so to do has been issued by the State Board of Health to the owner of such supply. No such permit will be issued if the State Board of Health determines that said water is in any way injurious to the public health. Corporations, companies and persons handling potable waters, shipped from points outside of the State of Maryland, shall receive permits to sell waters only upon presentation to the State Board of Health of a permit issued by the State Board of Health of the State from which the water is collected stating that the source of such water supply and the method of handling the water, as practiced within the limits of that State, are such as not to be prejudicial to the public health, and that said water is allowed to be sold within the limits of the State issuing said permit. Nothing herein provided shall, however, prevent the State Board of Health from prohibiting the use of such water shipped from another State, if in its judgment said water is shown by analysis to be unfit for potable purposes, or if its quality in any way is injured by such handling as may be accorded to it after arriving within this State.

1914, ch. 810, sec. 15.

283. After April 16, 1914, no new source of ice supply, either natural or artificial, shall be used for furnishing ice to the public for
